SUBJECT INDEX*

- Abrasion, effect on NBR fracture, (2) 321
 effect on NR fracture, (2) 327
 of metals by rubber, (1) 176
- Abstracts of papers; Fall 1979, (2) 377;
 Spring 1980, (5) 1261
- Accelerators, delayed action (review), (3) 393
 effects on elastomer blend properties, (4) 960
 non-thiourea, for CR, (5) 1268
- Acetone, aniline condensate, characterization of, (2) 346
- Activation energy, of oxidation, calculation of, (2) 378
- Adhesion, dry bonding systems for, (4) 795
 tire cord, test for, (4) 950
- Adhesion promoters, titanates as, (2) 391
- Adhesives, liquid functionalized CR for, (5) 1263
 brominated polybutadiene, (2) 285
 tire cord, aminimides, (2) 270
- Aminimides, as tire cord adhesives, (2) 270
- 3-Aminophenol, reactions in dry bonding systems, (4) 795
- Aminothiocabamyl, rubber accelerator (review), (3) 393
- Aniline, acetone condensate, characterization of, (2) 346
- Anionic polymerization, of block polymers (review), (3) 728
- Antioxidants, evaluation by DSC (review), (3) 437
 identification by field desorption mass spectroscopy, (1) 151
- Antiozonants, ozonation product analysis of, (5) 1170
 service life effect on NR suspension bushings, (2) 368
- Antivibration mountings, elastomer usage as, (5) 1041
- Aramid, fiber effects on polystyrene rheology, (4) 823
- Asphalt, low temperature properties of rubber mixtures, (1) 88
- Atmospheric monitoring, of rubber processing plants, (2) 388
- Authors, Guide for, (3) G58
- Automotive applications, elastomeric restarter for, (2) 335
 fatigue life model for suspension bushings, (5) 1226
- Bearings, foundation, NR, (1) 186
- Benzene, substituted, NBR resistance to, (5) 1262
- Benzoquinone, effect on model compound vulcanization, (1) 27
- Bis(alkylperoxy)diisopropylbenzene, molecular weight distribution effect on elastomers cured with, (4) 988
- Bisphenol A, butylated, identification by field desorption mass spectroscopy, (1) 151
 diglycidyl ether, polyoxazolidone synthesis, (1) 1
- Bitumen, low temperature properties of elastomer mixtures, (1) 88
 thermoplastic elastomer blends, (4) 994
- Blends, elastomeric, cure temperature and system effects, (4) 960
- Block polymers, bitumen blends, (4) 994
 elastomeric (review), (3) 728
 structure-property relations, (5) 1160
 styrene-butadiene, dynamic properties, (5) 1124
 styrene-butadiene, rheology of, (5) 1117
- Bloom, identification by field desorption mass spectroscopy, (1) 151
- Bonding systems, resin former reactions in, (4) 795
- Book Reviews

- Shear-compression properties, of elastomers, (5) 1133
- Shear modulus, of elastomers in compression, (5) 1133
- Silanes, coupling agents in model compound vulcanization, (1) 27
- Silica, effect on model compound vulcanization, (1) 27
- interaction with functionalized SBR, (1) 66
- Skid resistance, of shoe soles (review), (3) 512
- Soap, free, in SBR latex, (4) 1006
- Soles, shoe, factors governing slippage (review), (3) 512
- Sour hydrocarbons, fluoroelastomer resistance to, (5) 1269
- S, S-di(isopropyl)-N-(*p*-toluenesulfonyl) sulfilimine, prevulcanization inhibitor, (5) 1106
- Standard deviation, test variability estimation by, (2) 384
- Starter, automotive, elastomeric, (2) 335
- Statistical experimental design, use in testing and problem solving, (2) 385
- Steel, abrasion by rubber, (1) 176
- solventless BR adhesives for, (2) 285
- Strain, effect on elastomer T_g , (4) 982
- Strain energy density, of elastomers, (4) 836
- Stress relaxation, during rubber mixing, (2) 383
- of NR gum vulcanizates, (4) 805
- Stress softening, of SBS block polymers, (5) 1124
- Stress-strain properties, chain length distribution effects in peroxide-cured elastomers, (4) 988
- mathematical description of, (4) 836
- of GR versus NR, (2) 385
- Structure, carbon black, (2) 382
- carbon black, hysteresis effect, (5) 1272
- Styrene, butadiene block polymer, bitumen blends, (4) 994
- butadiene block polymer, dynamic properties of, (5) 1124

- butadiene block polymer, rheology of, (5) 1117
- Styrene-butadiene rubber (SBR), antioxidant efficiency in, (2) 378
- ^{13}C NMR analysis of, (5) 1191
- carbon black dispersion in, (1) 48
- cutting resistance of, (1) 210
- enthalpic analysis of vulcanization, (1) 160
- free soap in latices, (4) 1006
- functionalized, silica interaction with, (1) 66
- hydrocarbon resin effect on vulcanization, (2) 386
- latex mixture with bitumen, (1) 88
- metal wear by, (1) 176
- optimization of carbon black loading, (5) 1272
- oxygen effect on compression set, (5) 1273
- use of recycled rubber in, (5) 1215
- Sulfilimines, N-sulfonyl, as prevulcanization inhibitors, (5) 1106
- Sulfur, donor effect on model compound vulcanization, (1) 27
- Surface area, of carbon black, (2) 382
- Suspension bushings, automotive, service life of, (2) 368
- Swelling, of peroxide-cured NR, (1) 116
- Systematic analysis, of rubber compounds, (2) 387
- Temperature, tire, monitoring via thermographic scanner, (2) 381
- Tetrahydrofuran, urethane elastomers foam polyether glycols of, (5) 1032
- Textiles, energy requirements for manufacture, (5) 1265
- Thermal analysis, elastomer characterization by, (5) 1267
- of aminimide tire cord adhesives, (2) 270
- Thermal conductivity, biaxial orientation effect on, (1) 80
- Thermal degradation, of IR, dynamic modulus changes during, (4) 944
- Thermal expansion, of NR, (2) 313
- Thermographic scanner, tire temperature monitoring, (2) 381
- Thermogravimetry, of elastomers (review), (3) 437
- Thermomechanical analysis (TMA), elastomer characterization by (review), (3) 437; (5) 1267
- Thermoplastic elastomers, as cord insulation, (2) 382
- EPDM-polypropylene blends, (1) 141
- for bitumen modification, (4) 994
- nylon-NBR blends, (4) 781
- structure of (review), (3) 728
- Thermovision 680, tire temperature profiles, (2) 381
- Thiazolesulfenamides, rubber accelerators (review), (3) 393
- Thin layer chromatography, rubber compound reconstruction, (2) 383
- Thiocarbamylsulfenamides, rubber accelerators (review), (3) 393
- Thiomides, prevulcanization inhibitors (review), (3) 393
- Thiosulfonamides, prevulcanization inhibitors (review), (3) 393
- Thiourea, model compound vulcanization effect, (1) 27
- Tires, calculation of state of cure, (5) 1023
- high speed performance-rolling resistance relations, (5) 1271
- rolling resistance reduction in, (2) 386
- Tire compounds, systematic analysis of, (2) 387
- Tire cord, aminimide adhesives for, (2) 270
- deformation analysis of, (4) 849
- dry bonding adhesives for, (4) 795
- modulus effect on rolling deformation, (5) 1271
- rolling resistance effect, (3) 600
- rubber adhesive, test for, (4) 950
- Tire load inflation, calculation of, (2) 229
- Tire mechanics, stress characterization, (4) 849
- Tire testing, temperature profile scanning during, (2) 381
- Tire tread, carbon black hysteretic effects, (5) 1272
- optimum carbon black loading in, (5) 1272
- use of recycled rubber in, (5) 1215
- Tire wear, environmental effects of, (4) 903
- Titanates, polyphosphazene elastomer coupling agents, (2) 391
- Titanium dioxide, rheological effects on polystyrene melts, (4) 823
- Triazine sulfenamide, rubber accelerator (review), (3) 393
- Urethane elastomers, raw materials for, (1) 126
- UV spectra, of rubber, in compound reconstruction, (2) 383
- Valanis-Landel hypothesis, elastomer stress-strain behavior, (4) 836
- Vibration isolation, rubber usage for, (5) 1041
- Viscoelasticity, non-linear, of NR, (4) 805
- of elastomers, by thermal analysis, (5) 1267
- of NBR, (1) 14
- small strain, (5) 1145
- Viscometry, solution, NR long chain branching determination, (2) 377
- Viscosity, of fiber and filler-loaded polystyrene, (4) 823
- of rubber-bitumen mixtures, (1) 88
- rubber, effect on mixing efficiency, (2) 252
- zero shear, of viscous liquids, (4) 842
- Vulcanization, analysis of by DTA and DSC (review), (3) 437

SUBJECT INDEX

1289

- | | |
|---|--|
| continuous, energy requirements for, (5) 1266 | Wear, of metals by rubber, (1) 176 |
| model compound, filler effect, (1) 27 | Window channel, systematic analysis of, (2) 387 |
| of tires, state of cure calculation for, (5) 1023 | Zinc, fatty acid salts as processing aids, (2) 389 |
| Water resistance, of brominated BR adhesives, (2) 285 | Zinc peroxide, carboxylated NBR/PVC blend curative, (5) 1262 |
